

Alpha Medicinals™

Serving with Compassion

Alpha Medicinals™ is committed to providing compassionate care to patients who benefit from the therapeutic effects of medical cannabis by providing medicinal edibles made with the most nutritious ingredients — as pleasing to the eye and as they are to the palate.

Please note that each individually packaged edible is formulated for **extra strength** or **heavy dose**. Individual tolerances vary. **Please use with caution.**

Alpha Medicinals™ is honored to have received the award of 1st Runner-up in Specialty Products at the 2010 Annual Cannabis/Hemp Expo in San Francisco CA, April 2010.

Tips from Alpha

- Individual tolerances vary. Please carefully note the dosage on the packaged edible and begin by taking **one-half** of the recommended **single** dosage to check for patient tolerance, e.g., divide a 3-dose bar by sixths, wait 60 minutes after ingesting one-sixth, then determine the need for more medication
- We recommend that medicinal edibles be stored in the refrigerator and consumed at room temperature
